

GHX Marketplace Right Item. Right Vendor. Right Price.

Direct the future of your supply chain
from the front end.

GHX Marketplace

An **ecommerce solution** that enables maximum, sustained cost savings throughout the healthcare supply chain by driving contract utilization at the point of requisition.

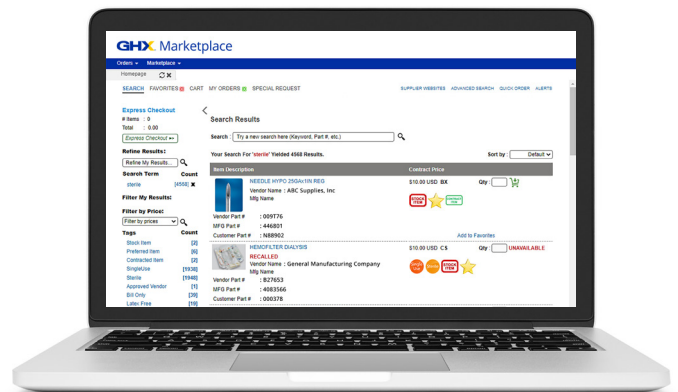

Features

- Bill-only workflow
- Formulary management
- Directed Search logic
- Enriched item content with images and supporting documents
- Intuitive ecommerce platform
- Single connection to more than 250 supplier punchout sites
- Rich analytic dashboards

Benefits

- Controlled clinical spend
- Intuitive user experience, enhancing satisfaction and engagement
- Clear and concise reporting metrics and KPIs

- Simple ERP integration with small IT footprint
- Decreases rogue spend, increasing overall compliance and savings
- Simple and accurate search capabilities
- Reduces time clinicians spend finding items and placing orders
- Increased visibility and standardization

Increase Compliance

Data Quality:

Bridge the gap between all data assets (manufacturers, suppliers, GPOs), the ERP and clinical workflows.

Price Accuracy:

Drive compliance across the procure-to-pay lifecycle.

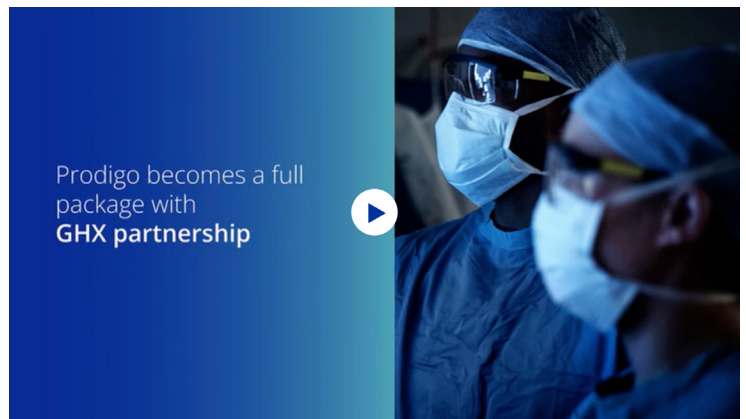

Transaction Automation:

Create a seamless, enhanced user experience, maximizing supply chain visibility while simplifying the requisition process.

Customer Testimonial

Watch the video to learn about the benefits of Marketplace joining GHX's supply chain solutions

“Having one system, having one tool, having it together makes it easier for everyone. GHX Marketplace has an Amazon feel.”

CARMEN WINFIELD

Vice President, Supply Chain
McLeod Health
